Profile

I am a highly organized web developer with a Bachelor's degree in Software Engineering from Al-Hussein Bin Talal University, College of Information Technology. I work across the full web stack, with a strong foundation in front-end technologies like HTML, CSS, and JavaScript, while actively expanding my skills in backend development. I am passionate about building responsive, user-friendly web applications. I learn quickly and constantly seek out new challenges through hands-on, project-based learning. I have a passion for leadership and volunteer work. I am currently looking for opportunities to contribute to innovative web projects and grow within a dynamic development team.

Education

Bachelor's degree in software engineering   2020 – 2024
Al Hussein Bin Talal University
Grade: 81.77 (Very good)

Experience

Data Analytics and Web Development   Jul 2025 – Mid Sep 2025
